

SHARP

R136 Series

High-end All-in-One Screen

Unleash Precision and Versatility with the R136 Series LED Display

Elevate your visual experience with the **R136 Series** — a premium LED display platform that offers impeccable clarity, modular flexibility, and smart integrations. This state-of-the-art display merges micro-pixel precision with optional interactive touch capabilities, delivering stunning visuals tailored for diverse applications, from corporate lobbies and command centers to high-impact retail and experiential environments

Micro LED

Integrated Design

Interactive touch (optional)

Intelligent system

136"

Big screen sizes

600nits

High brightness

2x15w

Built-in Speakers

15000:1contrast

90% BT2020

Full-screen calibration

Highly Integrated Design

The R136 Series comes as a complete kit ready to install, including controller, audio, PSU and all necessary display elements needed for the installation. There's no need for complex wiring and debugging, it's easy to install and use. The design of lift type control box satisfies the 97% above high screen ratio and the convenience of installation and maintenance

Micro LED Technology

Features the Micro LED technology, the R136 Series surface is covered with a black coating of polymer material. Bringing a deep and pure black, which enhances the clarity and visibility to bring out natural details and vivid colors for realistic and incredible images

Step Into the Future Where Accuracy Meets Interactivity

Equipped with a high-precision infrared touch system, the R136 Series revolutionizes interactivity and elevating user engagement. With 1mm touch accuracy and support for 20-point multi-touch and smart gestures, it delivers seamless and intuitive interactions

*The touchscreen functionality cannot be enabled when an external device is connected via HDMI

Remote Control for Easy Operation

The remote-control and user-friendly interface allow users to operate the display as if it were a TV or Monitor at home. The screen compatible with all control systems including Extron and Crestron which utilize the ethernet port. Various functions such as power on-off, parameter adjustment, page up and down, etc. can be realized

Specifications

Parameter	R136
LED Type	Micro LED
Screen Dimensions (W x H)(mm)	3000 x 1687.5
Pixel Pitch(mm)	1.56
Screen Resolution (dots)	1920 x 1080
Built-in Speakers	2 x 15W
Brightness (nit)	600
Contrast Ratio	15000:1
Grayscale (bit)	13
Refresh Rate (Hz)	3840
Viewing Angle (Horizontal/Vertical)(°)	160/160
Avg/Max. Power Consumption (W)	543/1628

Less Consumption, More Durability

40% energy saving is achieved by a combination of technological innovations, and adopted recyclable carton packaging design, practicing the "Absen Green" concept The panel-type encapsulation technology effectively protects the display from external impact

Intelligent System for Better Compatibility

Intelligent System for Better Compatibility The R136 Series comes with a standard Android 11.0 operating system. A Windows operating system is available through an additional OPS computer. An Ultra-large memory and a powerful 4-core processor are included for a smooth and fast performance for wireless screen mirroring from phones, computers, and other devices

Parameter	R136
Touch Option	±1mm touch accuracy, 20 simultaneous touch points
Android System	Android 11.0
Processor Core	Main frequency 1.8G 64-bit quad-core processor
Storage	4GB+32GB
Control Interface	RJ45 x 1, RS232
Input/output Interface	HDMI1.3 IN x 1, HDMI1.3 OUT x 1, USB2.0 x 4, Audio OUT x 1, SPDIF OUT x 1
Windows System	Optional
IP Rating(Front/Rear)	IP40/IP21
Certification	CB,EMC,ROHS
